10. There is anecdotal evidence that suggests that school uniforms reduce disciplinary infractions in school while providing a cost savings to parents over the long term; however, research has found that it has little effect other than by building a source of pride in the school/community (Brunsma 1998). In other words, there is support on both sides of the issue. Please help us to determine if uniforms would be supported by parents.

12. The division currently participates in the VPSSA grant that allows us to fund technology necessary to implement online testing. Additionally, the state has provided some flexibility with textbook money to allow us to purchase online textbooks and the devices to run online textbooks. Assuming that we could use these two funding streams to fully fund the project over a 2-5 year period (no funds required in local property tax), please consider the following issue. Schools where all students carry a computer are referred to as 1-to-1 below.
